Work

Building products
Independent
Jun 2026 – present

- I built Sancho, an AI family assistant on Vercel's eve framework that makes sure my wife and I keep up with our kids' day-to-day.
- I built Claude Interviews, where you have an AI talk to a person instead of sending a survey. Live demo: gonzaloenei.com/claude-interviews-demo
- I built Garden of Eve, a node map to view an AI agent's configuration: its instructions, tools, skills, and subagents. gonzaloenei.com/garden-of-eve
- I built an iOS app for planning and managing social media posts.

Co-Founder & CEO
Faces · Full-time
Jan 2023 – May 2026 · 3 yrs 5 mos

- Co-founded and led Faces, presentations where every slide is as dynamic as the web, generated by AI. Launched in Feb 2026, close to 100k signups.
- We also shipped several experimental products: an LLM-product prototyping canvas, autonomous workers, an AI-native workspace, and a Chrome extension that generated new interfaces on top of web pages.
- Hi Ventures and Bessemer backed us. Faces is sunsetting at the end of 2026.

Head of Growth & VP of Product
Fintual · Full-time
Mar 2019 – Jan 2023 · 3 yrs 11 mos

- Employee No.11 at Fintual, which makes investing easy for people in LatAm. We grew from $10M to $650M in assets under management in four years. By the end I was leading a team of 80+.
- I ran growth: content, product-led referral loops, lifecycle outbound communication, and community events.
- As VP of Product I organized the core offering, structuring our financial products into one coherent suite.
- Sequoia-backed. Fintual's founders later invested in Faces.

Co-founder & CEO
El Vaso Medio Lleno
Jun 2014 – Mar 2017 · 2 yrs 10 mos

- El Vaso Medio Lleno was a digital media startup that focused on positive content and got 23M monthly content views cross-platform.
